

About The Coordinator

Ms Anuradha N is the coordinator for community outreach activities of ESO since 2010. She is currently doing her doctorate research on “Innovative approaches to improve spectacle and referral compliance among school children post vision screening”. Under her leadership ESO achieved the LIMCA record of screening 8469 children in one day. She has coordinated the screening for 261068 school children between 2010-2016. Single day screening strategy, phased and structured protocol for school vision screening, implementation of interventions to improve compliance, upgrading existing protocols for school vision screening, installation of Tamil logMAR charts for self-testing in public places, planning and implementing creative awareness campaigns, arrangement of rallies, training of optometrists and optometry students for community service, training volunteers as vision and Sight ambassadors are the key roles of the coordinator. She is also responsible for the regular comprehensive free eye camps conducted by ESO.
