

Note of appreciation for ESO's team

Letter from MCC School, Tambaram where ESO's team conducted vision screening...

Thank you very much for screening the vision for all the children in our school. We were surprised to see that several of our children needed glasses and because of your teams diagnosis they will soon be able to see clearly. The family of student (X) thanks you immensely for the timely diagnosis. She had her eyes examined and was advised laser treatment. Other children with referral will soon contact Sankara Nethralaya. From the school, we thank you immensely. Looking forward to having you next year.
